

NETTLESTONE AND SEAVIEW PARISH COUNCIL

(These Minutes are unconfirmed and are not an official record until signed).

MINUTES OF THE PARISH COUNCIL MEETING

held at St Peter's Church Hall, Seaview on Monday 18th October 2021 at 7pm

PRESENT: Cllrs Elliott (Chairman), Adams, Redpath, Colledge, Rogers and Hardie.

The Chairman welcomed Members (6) and Residents (12)

A resident asked if there had been any progress with the bin audit and what was happening with the 'Tree Guardian' initiative. Cllr Hardie is waiting for a response from Island Roads before bringing bin recommendations back to the meeting. Cllr Elliott explained that the Tree Guardians initiative is being coordinated by Vilma Barraclough and that he would get in touch with her to find out what progress has been made.

21/142

Chairman's Comments:

The Chairman paid his respects to Sir David Amess MP who was killed during his constituency surgery the previous week.

21/143

Apologies for Absence:

Cllrs Jenkins, Geernaert-Davies, Marlton and Barry sent their apologies.

21/144

Declarations of Personal and Prejudicial Interest:

Cllr Rogers declared an interest in item 21/150 and Cllr Elliott declared an interest in applications 21/01776/FUL and 21/01714/FUL.

21/145

To approve the Minutes of the Previous PC meeting held on the 20th September 2021.

The members voted to approve the minutes of the meeting held on the 20th September 2021.

21/146

Clerk's Report:

- The Environment Officer reported storm damage to multiple fence posts at Kerry Fields Play Area, three of the posts have been replaced by CWC at a cost of £200 including labour and materials – other posts will be kept under observation.
- The Dinghy Park audit signs have been reinstated as spot checks will be carried out during the season but sadly there is no progress with Richardson's being able to source concrete posts for the planned fence replacement.

Page 2

- 21/129 – The tree preservation orders requested under item 21/121 has been acknowledged by the IWC and an officer assigned to investigate the validity of the request. The Tree Officer will write to inform us of the decision.

Page 6

- 21/133 – The update to the financial regulations that allows the RFO to make electronic payments has been completed and this month's payments will be made by bank transfer, rather than physical cheques.
- 21/135 – The defibrillator electrics have been put in place and the box will be fully secured on the 19th October before leaving the device in place and registering with the Circuit.

Page 7

- 21/137 – The parish council's responses to the Island Plan Consultation were collated and submitted to the IWC – The final response can be viewed on the parish council's website.

21/147

Planning:

21/147/01: Delegated decisions, as per the list circulated, were noted.

21/147/02: The following applications were then considered:

- 21/01776/FUL: Land To The Rear Of Solent View Road,
With Access Off Seagrove Manor Road Seaview
Proposal: Proposed construction of 9 no. dwellings with associated access, car parking, landscaping and highway works.
Comments by 22.10.21

Resolved:

The Parish Council resolved to object to this application as follows:

The 2019 consultation on sites for inclusion in the proposed core strategy for the Isle of Wight included this field and the adjacent Farmer's field as sites HA073.

Following discussion at a public meeting the Parish Council submitted (20th Feb 2019 with addendum 21st May 2019) its comments on the draft proposals including the following on the two sites HA073 - "This is listed as a greenfield site to provide at least 25 homes providing a mix of sizes and an affordable housing contribution. However, this site is part of the rural landscape and green corridor and it is felt that it should remain that way, especially since the parish would be able to deliver alternative sites for the proposed local need."

The current application is for a development on greenfield land and is therefore against Parish Council policy. Again, it is land with high visual amenity with current seascape views.

Furthermore, and most importantly, there is a problem with access to the site. This has resulted in strong objection by Island Roads with which the Parish Council concurs. In this instance, Island Roads has repeated its objection to application 21/00779/FUL (land to the west of this site) highlighting that this particular application (21/01776/FUL) proposes access through the other site which has yet to be determined.

The two developments between them, will triple the traffic movements on Seagrove Manor Road.

Seagrove Manor Road is very narrow and can be difficult to negotiate particularly alongside larger vehicles, and in consequence Island Roads quite rightly point out that there is inadequate width to serve the proposal; and that the roads and junctions are unsatisfactory rendering the application against policy DM2 of the existing core strategy.

The Parish Council created a Supplementary Planning Document (SPD) in 2017/18 that stated the council's view on preserving 'Green Spaces' in the parish and this application is in contradiction to N&SP Policy 2 - Open Space :

The Parish Council considers that existing open spaces and wooded areas should, wherever possible, be preserved in perpetuity. Because of their particular importance to the community as both recreational and visual amenities, the Parish Council will seek Local Green Space Designation for open spaces threatened by a development proposal, unless there is an overriding public benefit. This area of land is identified in section 4.5.8 of the SPD. The SPD also states the need to preserve this area of land in section 4.6.1 - strategic functions - defining and separating urban areas; providing community greenways, 'green lungs' or landscape buffers; better linking of town and country; and serving recreational needs over a wide area. Section 4.7

states that this area of land should be protected from development.

A report has shown that the land in the area is known to be unstable and this development could exacerbate slippage.

Photographic evidence also shows that the development will create serious 'Overlooking' of Solent View Road.

Furthermore, there are well publicised issues with the Island's inadequate infrastructure and this development will only add to pressure on the drainage system that discharges into the Solent nearby and this is unacceptable to the parish council.

Finally, the Isle of Wight enjoys a UNESCO designation as a Biosphere but the continuous destruction of green spaces such as this threatens the Island's ability to maintain this designation and the parish council wishes to protect that status.

The Parish Council therefore strongly objects to this application.

- 21/01714/FUL: Land Adjacent To Robin Hill Seaview Lane Nettlestone Isle Of Wight.

Proposal: Proposed detached bungalow and associated landscaping.

Comments by 22.10.21

Resolved:

The Parish Council resolved to take a neutral position on this application.

- 21/01811/HOU: Lower Flat Invergordon Fairy Road Seaview Isle Of Wight PO34 5HF.

Proposal: Proposed garden room & store.

Comments by 22.10.21

Resolved:

The Parish Council resolved to support the application.

- 21/01818/HOU: Jays Court Esplanade Seaview Isle Of Wight PO34 5BW.

Proposal: Proposed extension at 1st floor level to form study; alterations; new decking and balustrade.

Comments by 22.10.21

Resolved:

The Parish Council resolved to support this application on the condition that the oak tree in the grounds is preserved.

- 21/01856/HOU: 12 Solent View Road Nettlestone Seaview Isle Of Wight PO34 5HY

Proposal: Demolition of garage; Proposed single storey extension; roof terrace; alterations to exterior materials.
Comments by 29.10.21

Resolved:

The Parish Council resolved to support the application on the conditions that there will be sufficient parking onsite (as per Island Roads Report) and that neighbouring property will not be overlooked.

- 21/01870/FUL: Land To South East Of Ingle Dell Esplanade Seaview Isle Of Wight

Proposal: Construction of detached boat store with summer/sitting room and balcony over (revised scheme).
Comments by 29.10.21

Resolved:

The Parish Council resolved to object to this application as this will lead to the destruction of greenspace/woodland and that there will be a change of use from storage to residential for the unit.

- 21/01931/6PA: OS Parcel 5580 Land Forming Part Of Westbrook Farm Bullen Road Ryde Isle Of Wight

Proposal: Agricultural Prior Notification for a storage barn.
Comments by 15.10.21

Resolved:

The Parish Council resolved to support the application.

- 21/01948/ADV: Vaughan And Page Park Lane Nettlestone Seaview Isle Of Wight PO34 5LT

Proposal: Non illuminated advertisement board.
Comments by 05.11.21

Resolved:

The Parish Council resolved to support the application.

21/147/03

Appeals:

No new appeals to note.

21/148

Reports:

21/148/01: I.W.C Ward Cllr: Cllr Adams reported that he has continued his investigations into the multiple issues currently relating to Southern Waters management of the Island's water resources. He is keen to arrange a public meeting with Southern Water and would like to invite Bob Seely MP and IWALC to attend as well.

21/148/02: N&SCP: Cllr Hardie reported that the Barnsley Trail interpretation board was successfully installed on Nettlestone Hill and related to this a large puddle has formed on part of the trail, by the kissing gate, that needs repair work – the Clerk has reported this to the Rights Of Way team. Father Christmas will visit Vic's Store on the 22nd December, there will be community Carols at St Peter's Church on the 23rd December and late night shopping will be accommodated one night in Seaview near Christmas as well. Plans are already in place for re-using the 'pallet' Christmas trees produced by Men In Sheds last year, around the parish too.

21/148/03: Seagrove Pavilion Trust: The pavilion has recently benefitted from some electrical improvements but the Art club will be stopping and groups are invited to take up the space left by its departure. The Silver Surfers club is currently without a volunteer coach and people who think they might be able to help in this regard are encouraged to get in touch with the Pavilion Trust.

21/148/04: Nettlestone Residents Association: A resident reported that members are extremely concerned about the proposed double yellow lines on Seaview Lane (item 21/150), as well as the proposed car park for Gibbwell Field and a petition has been started to oppose them.

21/148/05: IWALC: Cllr Adams reported that IWALC have written in support of Bob Seely's proposal that the Island should be recognised as having 'exceptional circumstances' compared to the mainland when it comes to planning targets and receive a much reduced figure for the number of houses that need to be built each year. IWALC are also running a finance planning training course on the 27th October for member councils.

21/148/06: Others: Jo King reported that the Bird Hide at the reserve is still not open but is hopeful it will open during the half term holiday.

21/149

Parish Council Meeting Schedule:

A resolution to update the wording of Standing Order no.1 Meetings to read: "Meetings of the Council shall be held on the third Monday *or Tuesday* of each month unless the Council decides otherwise by resolution, at a previous meeting. Unless decided otherwise, there will be a recess in August each year." Had already been proposed and seconded at the meeting held on the 20th September 2021 (Item 21/132) – as per the Standing Orders, the vote was taken.

Resolved:

The members resolved to update the Standing Orders to include the words 'or Tuesday' in item no.1 Meetings after the word 'Monday'. As a result, the next meeting will be held on Tuesday 16th November 2021 at Seagrove Pavilion.

21/150

Traffic Order for Seaview Lane and Rowan Tree Drive:

The Isle of Wight Council has published a Traffic Regulation Order that would result in double yellow lines being placed along sections of Seaview Lane and Rowantree Drive (proposed TRO attached as Appendix A). This TRO has been generated as a result of the proposed development on Gibbwell Field. Cllr Redpath explained that from figures she had requested, there had been no recorded accidents in the area for ten years. Cllr Redpath had also deduced that approximately 19 parking spaces will be lost as a result of the double yellow lines.

Resolved:

- The members resolved that the Clerk should write to Cllr Phil Jordan (IWC) and Scott Headey (Traffic Manager) to express their objection to the proposal. The objection is as follows: A recent survey by the parish council showed that the cars parked along Seaview Lane slow down traffic and this contributed to the accident-free nature of the area.
- The placement of the lines will drive parked vehicles towards the bend further down Seaview Lane – opposite Fairy Hill.
- Residents have addressed the parish council to let the members know that they have not been consulted about the placement of these lines outside their homes.
- Houses on Nettlestone Hill and Nettlestone Green have insufficient parking already, due the era in which they were constructed, and combined with the school traffic, the potential removal of 19 parking spaces will be heavily felt by the community. The primary location that motorists will now look to park their vehicles (if the double yellow lines get introduced) is on Nettlestone Green itself and this road is already desperately short of parking for the current residents. As more planned developments take place, this pressure will only increase.

The members also noted that a new pedestrian crossing at Nettlestone Green is included the accompanying plan, as well as the development requiring the removal of a large amount of existing hedgerow to accommodate access to the site – the members requested that Clerk also write asking for clarification as to the status of the pedestrian crossing and hedgerow removal.

21/151

Community Speedwatch:

Cllrs Adams asked for this item to be deferred as he had become aware that Hampshire Constabulary are not currently supporting the adoption of new groups to the scheme.

21/152

Parish/Neighbourhood Plan Working Group:

Cllr Redpath presented the findings and recommendations of the working group to the members (attached to these minutes as Appendix B).

Resolved:

The members resolved to move ahead with a Neighbourhood Plan that in the first instance concentrates on Green Spaces, with a view to expansion at a later date.

In the meantime, the working group will arrange a detailed analysis of the successes and failures of the recent Parish Plans with a view to updating them to reflect current circumstances.

21/153

Southern Water:

Cllr Adams already has plans to take this forward (21/148/01) so there was no further discussion on the topic.

21/154

Parish Flooding:

At the previous council meeting, Jo King (a Seaview resident) had presented a detailed description and analysis of the flooding that took place in the parish during the Summer and provided the information in a report to the council (attached to these minutes as Appendix C)

Resolved:

The members resolved to write to the Isle of Wight Council, presenting the information provided by Ms King and request that the areas of the parish identified in her analysis are placed into the Island's Flood Risk Management plan.

21/155

Age Friendly Island:

Kevin Berry presented details of his role as the Chair of the OPSG for AgeUKIW and supported his presentation with the updated 'Age Friendly Island' charter and 'Pavements for People' booklet (presentation and support materials attached to these minutes as Appendix D)

Resolved:

The members resolved to re-adopt the Age Friendly Charter and to endorse the Pavements For People initiative that will see former Cllr Sally Rivlin (parish Age Friendly Champion) taking walks around the parish and reporting issues as advised in the Pavements For People booklet.

21/156

Festive Lights Working Group:

Cllr Hardie explained that NDLE were investigating the purchase of replacement 'Fairy Bell' tree for the corner of Eddington Road as the existing one was damaged beyond use in the previous year's storms and also the purchase of a new pole for the large LED tree that goes on Sophie Watson's Garden as the existing one was also damaged. The lights on the tree at St. Peter's Church will be checked and reinstated and the Clerk has reserved a 15-20ft Christmas tree from Thompson's that NDLE will collect and dress. The cut tree will cost up to £300 and the prices are being finalised for the other items with NDLE.

Resolved:

The members resolved to delegate responsibility for approving the expenditure on the festive lights to the Clerk on condition that he consulted with the working group and the total expenditure was inside the agreed budget of £3000.

21/157

Remembrance Wreath:

The Clerk explained that the purchase of the wreath this year would have to be carried out using Section 137 of the Local Government Act 1972 as the council lost the General Power of Competence at the elections in May.

Resolved:

The members resolved that a poppy wreath should be obtained from the Royal British Legion and the purchase and contribution to the Poppy Appeal should total no more than £150.

21/158

Correspondence:

21/158/01: The following items were circulated:

Planning Inspectorate – Notification of a failed appeal
APP/P2114/C/20/3251025

21/158/02: The following items were reported:

Isle of Wight Council – acknowledgement of the request from the parish council for TPOs on the oak trees in Seaview Recreation Ground.

21/159

Finances:

21/159/01: The following receipts were noted: -

The clerk circulated a report of the schedule of receipts up to 18-10-2021. There were no questions or comments. Attached to these minutes as Appendix E

21/159/02: The following payments were approved: -

The clerk circulated a report of the schedule of payments up to 18-10-2021. The members resolved to approve these payments. Attached to these minutes as Appendix E

21/159/03: Grant Applications: -

An application was received from the Women's Institute to contribute to the production of re-usable Remembrance Day banner – the members resolved to grant £42 towards the production of the banner.

21/159/04 To receive an income/expenditure report up to 30th September 2021:

The clerk circulated the above report to members – there were no further questions and the report was noted.

21/160

Information and Report:

Cllr Colledge asked if anyone knew what was going to happen with the bench that has been removed next to the stand at Seaview Recreation Ground – the Clerk will check with Island Roads. Cllr Colledge raised concerns about the bin by the stand not being emptied – Cllr Hardie will check its status on the list from Island Roads.

There being no further business, the meeting was declared closed at 9.39pm.

.....
Chairman
16th November 2021

**THE ISLE OF WIGHT COUNCIL
(SEAVIEW LANE, NETTLESTONE)
(TRAFFIC REGULATION)
ORDER NO 1 2021**

Notice is hereby given that the Isle of Wight Council in exercise of their powers under section 1(1) and (2), 2(1) to (3) and 4(2) of the Road Traffic Regulation Act 1984 ('the Act' of 1984), the Road Traffic Act 1991 ('the Act of 1991') and of all other enabling powers and after consultation with The Chief Officer of Police in accordance with Part III of Schedule 9 to the Act of 1984 propose to make an order the effect of which will be to:

1. To enact the provisions contained therein subject to the following amendments:

- a. To introduce 'No Waiting at Any Time' in the following lengths of road:

Seaview Lane, on the west side, from a point 39.5 metres north to a point 110.5 metres south of its junction with Rowantree Drive.

Seaview Lane, on the east side, from a point 39.5 metres north to a point 48 metres south of its junction with Rowantree Drive.

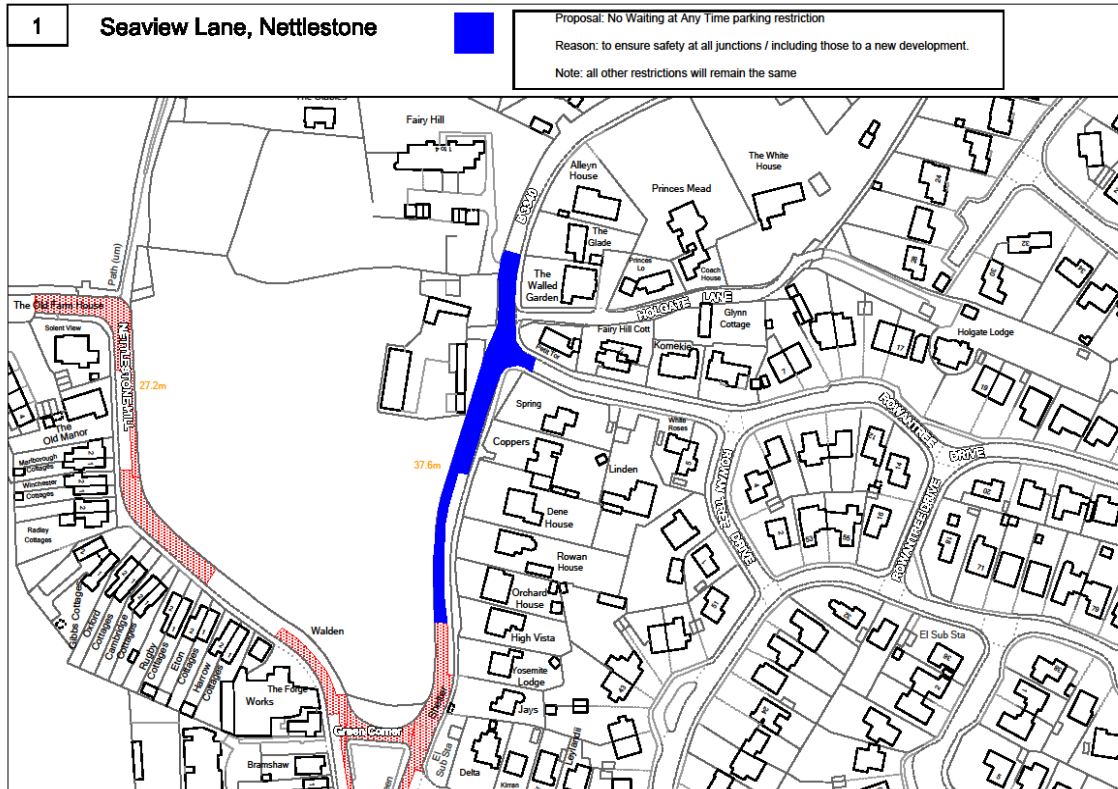

Rowantree Drive, on both sides, from its junction with Seaview Lane to a point 12.5 metres east thereof.

The amendments are being proposed for avoiding danger to persons or other traffic using the road or any other road or for preventing the likelihood of any such danger arising, and for facilitating the passage on the road or any other road of any class of traffic (including pedestrians), following proposals for a new development.

A copy of the draft Order, this Notice and the relevant plan may be inspected between normal office hours at the Customer Service Centre, County Hall, Newport, Isle of Wight during the objection period. If you wish to object to the proposal contained in this notice you should send the grounds for your objection, in writing, to Scott Headey – Traffic Manager, St Christopher House, 42 Daish Way, Newport, Isle of Wight, PO30 5XJ, highways-pfi@iow.gov.uk, not later than 12 noon on Friday 29 October 2021.

Scott Headey - Deputy Strategic Manager – Highways and Transportation / Traffic Manager

1 October 2021

NEIGHBOURHOOD PLAN WORKING PARTY

Cllrs Elliott, Adams, Barry, Redpath and Rogers met together with Brian Jennings (clerk) to consider a recommendation to the PC in accord with Minute 21/120 of the PC meeting on 20th July 2021

Parish Plan:

There was a discussion about the effectiveness of the council's existing Parish Plan to protect green spaces and Cllr Redpath explained that DEFRA have recommended targeting green spaces in Neighbourhood Plans.

Resolved:

The members agreed to form a working group to analyse what has been achieved against the Parish Plan and what could be fed into a future Neighbourhood Plan - Cllr Redpath will lead the working group and the Clerk will distribute an invite to members to express an interest in being part of the group.

The group was aware that the 2007 parish plan had been adopted in 2012 as a Supplementary Planning Document (SPD) to the existing Island Plan.

A revised Parish Plan had been completed in 2017 and had been forwarded to the IOW Council with a request for its adoption as SPD. This had to wait for the formulation of a new Island Plan – currently under consultation and not expected to be adopted until 2023.

At the recent consultation meeting with the Planners regarding the draft Island Plan Strategy (IPS), the planners had noted that there needed to be some updating of the Parish Plan being unspecific as to which version was referred to.

The working group also looked at the action plans associated with each of the 2007 and 2017 and recognised that some monitoring was necessary to reflect the current situation; and to consider if and how the Parish Plan could be updated to meet the current needs and wishes of the two villages.

A main issue for the parish was the preservation of important green spaces and this had formed a discussion at the May PC meeting. Research on the options to secure designated green space was undertaken and is attached as Appendix 1.

The group were aware that grant funding was available for the production of a neighbourhood plan and were of the view that there was an urgency to obtain designation of green recreational space

The Working Group therefore recommend that the Parish Council pursues the option of a Neighbourhood Plan that in the first instance concentrates on Green Spaces with a view to expansion at a later date.

In the meantime, to arrange a detailed analysis of the successes and failures of the recent Parish Plans with a view to updating them to reflect current circumstances.

Parish Flooding:

Residents of Seaview Duver ask the PC/Ward Cllr. to report summer flooding to the Council's Emergency Management Team.

We have played our part over the years; many have fitted duck boards/pumps and we regularly clear the grille to the Outfall 3 of vegetation which in the past has compacted and restricted water flow.

However, with such intense rain events forecast to increase in the future, we strongly feel the Local Flood Management Strategy should be updated to include Salterns/Duver/Springvale and are obviously concerned that any development in their catchments will inevitably give rise to more serious flooding over a wider area.

If you need any more information please do not hesitate to contact me.

Best wishes,

Jo King

I am here on behalf of the owners of several properties along Seaview Duver – East Gull Sands, The Sea House, Tides Reach, Mariners and King's Reach.

We are used to the Duver flooding during the winter, but this is the first time I can ever remember flooding during the summer months and this happened three times during 2021 – on 29th June, 12th July and 2nd August.

The recurring rains meant the water table was already high and on the 2nd August - in only two hours - water in the nature reserve had reached the top of the culvert pipes to the main outfall; both Tolgate field and our gardens quickly filled with water .

The Parish road network was affected – the bottom of Nettlestone Hill filled with water and the road was closed; the junction of Puckpool Hill with Springvale flooded and the road was closed. Traffic was directed via Duver Road and Oakhill Road, where a bus broke down and gridlock ensued. We are always being reminded Duver Road is in fact a car park – well on 2nd August it most certainly was. Had there been any kind of emergency, ambulances, fire engines or police vehicles could only have accessed the Parish via St. Helens.

We were all very lucky that it was neap tides and the tide was already receding so we did not suffer tidelock. None the less, flooding level reached at least +1.75 ODN on the flood contour maps produced as part of the Coast Protection scheme, or what is referred to as 'medium' level on the uk/gov/long term flood risk map (levels which are expected to return once every 30-100 years, certainly not every two weeks).

We fully understand there will always be risks in flood prone areas, however back in 2016 the Parish Council asked that Salterns and The Duver be among the specific areas included in the Island Local Flood Risk Management Strategy. They were not. The strategy, published in July 2016 was developed to cover 5 years and must therefore now be up for review.

One of the key trends highlighted in the Strategy was more frequent and intense storms causing more widespread and regular flooding.

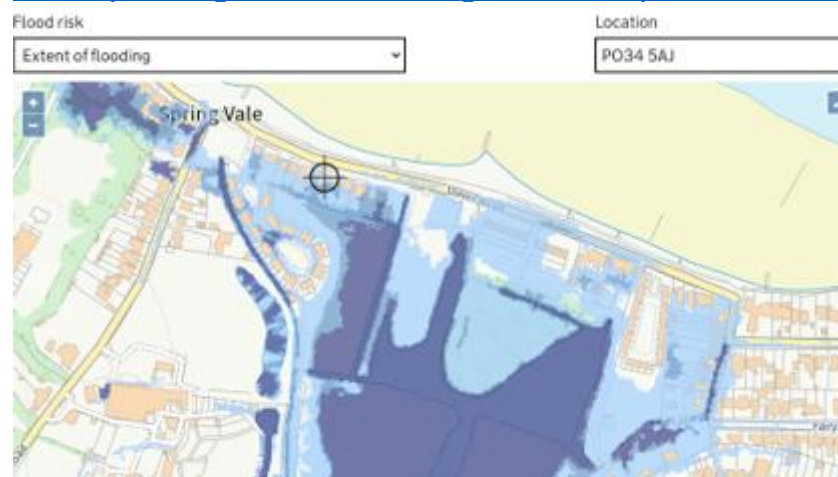

For the long-term, given the flooding this summer, flood risk mapping of Salterns/The Duver and Springvale should now be undertaken as the precursor to any flood management planning for these areas. It should be remembered that the Duver/Salterns catchment stretches all the way back to St Helens, and the Springvale catchment to Marlborough and Brading Road.

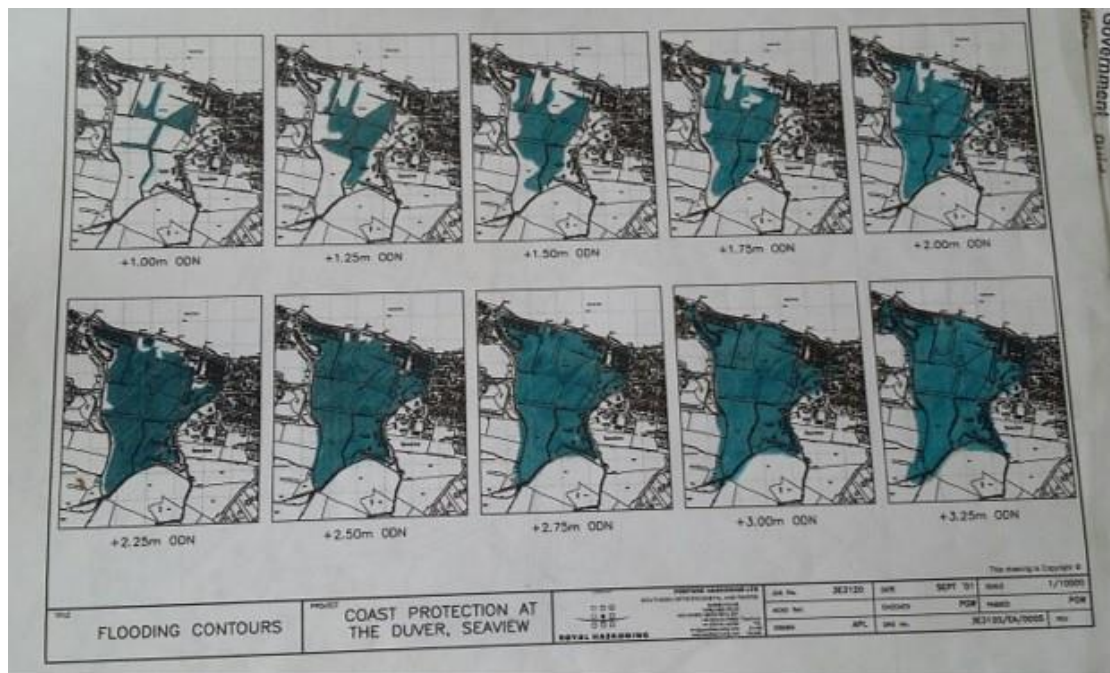

In the short term, we could not help but notice that whilst water was gushing out of Outfalls 2, 3 and 4 , none was gushing out of Outfall 1 (opposite the old Crab Shack site). For many years now much of the water from the Barnsley Brook is diverted into the Duver lagoons, however the old water course which leads to Outfall 1, should be inspected because it could provide spare outfall capacity during times of heavy rains.

The Lead Local Flood Authority is IW Council and we ask the Parish Council and our Ward Councillor to report these flood events to the Council's Emergency Management Team in the hope that our Parish can now be specifically included in the Island's Flood Risk Management Strategy.

Age Friendly Island – Kevin Berry

My role with AF Isle is now Charing the new OPSG for the Island which we put in place to lead the Age Friendly agenda going forward facilitated by AgeUKIw to sustain the principles going forward and the National Centre for ageing Better which has provided our 7million lottery funding over the last seven years. Our current projects are, 'Environment ' latest output 'Pavements for People', employment of over 50's which is in its third year running throughout the IWCC , AF surgeries which is now national, also working on getting the Practice Patient Groups back up and running again and lastly Digital Inclusion, with the AF Charter now having an additional digital pledge for adoption by our existing forty members like our parish and separately appropriate companies websites etc..We now have the Freshwater Parish Councillor George Cameron representing our Steering Group on IWAIK and also have representation on the Police and Crime Commissioners Older Persons Panel, the Islands Well Being Board which brings together the NHS, Social Care and Clinical Commissioning Group and IWCC Climate Committee. Our aim is to set the older persons agenda for the Island through the various bodies already mentioned above and our latest opportunity bringing the chamber of commerce in to lead over 50's in work through their membership.

Now it's my turn to bang on again about our parish demographics and the Parish Leadership it needs. My hope is that the council will put as much effort in supporting the massive changes in demographics coming our way in the next decade that is given over to planning. Why? Our make up is likely to be confirmed at 60% being 60 and over, with 50% being over 70 in the latest census which illustrates the kind of support and activities we need to put in place. We also had the highest single over 90's singles in the country and the 4th highest longevity.

The 'supporting our Seniors project' that I lead for the Community Partnership for five years was completed three years ago with the setting up of the Nettlestone and Seaview shed which I am proud to say opened their workshop at the recreation ground last Friday. I also handed over my role as AF Champion to Sally Rivlin who was then a Parish Councillor and now sits on the Community Partnership Working Group. It is through the two groups working together after sounding out what the population needs in an annual plan which is covered in the Parish Plan and AF Charter.

Their are two decisions we would like the Council to support today the first being the AF Charter update

Proposal: To re-adopt the AF Charter with the additional digital commitment
Background:

Brian already undertakes to keep the councillors up to date with all the relevant technology Involved in your roles. The website has an accessibility pop up which covers all types of needs. The Community Partnership is about to get the Seagrove Silver Surfers back up and running giving our older residents a local opportunity to fulfil their technological needs. I would

encourage the Business Association through the Community Partnership to adopt a similar option to the Parish on their websites.
Vote:

Pavements For People – Sally Rivlin’s proposed walk arounds for Pavements for People and hope you will give her your full support.

Proposal: to join with the Community Partnership to walk the parish pavements to highlight the issues using the booklet to inform the relevant bodies.

Age Friendly Island Charter
Older people have the right to:

Inclusion
Access and enjoy the same opportunities as others, so strengthening relationships within the Island community.

Health & Wellbeing
Live well by having choice and access to services which enable them to lead fulfilling lives and age well.

Digital
The support to access digital technology. To learn new skills to use online services and stay digitally connected with friends and family.

Participation
Live, work and enjoy leisure activities as anyone else. The wider Island community recognises the skills and assets that older people bring.

Contribution
Influence and shape decisions that affect all aspects of their life and the Island community.

Confidence
Live independently in their home and community. When needing support, older people should have the confidence that they will be heard with respect.

Nettlestone and Seaview Parish Council commit themselves to ensuring the Parish has an Age Friendly Champion to:

- Ensure all we do for older people is driven by them and our appropriate actions includes them
- Engage with the Community Partnership to develop an annual action plan

Logos: Nettlestone & Seaview Parish Council, Digital Friendly Island, Age Friendly Island, Community Fund.

Pavements for People
Common access issues, who is responsible and how to report it.

Logos: Age Friendly Island, Island Roads.
